SAFETY STAFFING / CONSTRUCTION / COMMERCIAL DIVING SERVICES

The mission of Intact is unique. We bring Hard Work, Honesty and Knowledgeable professionals to every job-site and ensure quality results. Quite simply, we provide reliable professionals that adheres to US Government Regulations while executing assigned tasks in the highest degree of performance.

PAST PERFORMANCE

- Visual and Non-Destructive Testing (NDT) Examinations performed utilizing Magnetic Particle, Liquid Penetrant, and Ultrasonic Thickness Gauges on Pressurized Piping Systems, Pressure Vessels, and Above Ground Storage Tanks in accordance to: ASME Sec. V Article 9 (Visual Examination); ASME B 31.3 (Process Piping); ASME Sec. VIII Div. III (Construction of Pressure Vessels); API 570 (Recommended practices)
- Generated Repair Plans for Maintenance and Welding Personnel for the correct installation of on-site piping and components
- Verified accuracy of Welding Procedures for Piping Specifications before scheduling liquid Penetrant or NDT examinations
- Member of the Pre-Safety Startup Review (PSSR) Team and Ready for Test (RFT) Team
- Coordinated personnel on attaining proper operating conditions for Plant Start-Up of the Fire Suppression System
- Assured proper working of Post Indicated Valves (PIV) on Fire Grid

DIFFERENTIATORS

- Intact Services provides qualified professionals to implement proven hands on experience at client work sites nationwide.
- Able to deploy on short notice, with the ability to handle short and long-term projects bringing over 25 years to each job
- Based out of Houston, Texas, contact us for your Construction or Commercial Diving needs. We help keep America Strong.

COMPANY DATA

Intact specializes in corrosion mapping and weld interrogation for both Topside and Underwater structural components weldments. In addition to Non-Destructive Testing (NDT) we offer safety staffing services and other QHSE services.
